

The Israeli Ministry of Science and Technology (MOST), the Indian Department of Science and Technology are honored to invite you to Scientific Workshop in:

**Advanced Materials**

The Workshop will take place on June 27-28, 2018.

The purpose of the workshop is to present the most updated scientific development of India and Israel in this field and to meet scientists, senior researchers and young investigators from both sides to build up new scientific collaboration.

This workshop will include scientific lectures by senior researchers from both countries.

Young researchers (PhD. Students and postdoc students) are invited to submit abstract for posters no later than 03.06.2018

**More details will be published soon.**

**The last date of signing up will be 15.06, 2018**

**The registration is free however, the number of participants is limited.**

For more information, please contact:
