<u>Junior front end developer</u> (part time)

Source Defense created a SAAS solution to a problem website owners have been struggling with for over 15 years; and we are the first ever real solution there is for this problem. As expected market response to our product is amazing, websites can't wait to start testing this platform.

We invite you to be part of the core team that brings this product from Alpha status to GA and help us change the internet.

More details will be provided to applicants during the interview.

<u>Job Description</u>:

Must have excellent knowledge of HTML,CSS

Good knowledge of bootstrap

Good knowledge of JavaScript

Knowledge in angular is an advantage
