

Sigmabit Research Labs

Machine Learning algorithm researcher

Sigmabit Research Labs is looking for an exceptional machine learning researcher to join our cognitive systems group. We create sophisticated adaptive algorithms that use statistical learning and graphical models to solve complex problems.

The ideal candidate would have:

- MSc in CS \ Physics \ Engineering \ Statistics \ Applied Math
- PhD in a relevant field – a significant advantage
- Experience in algorithm development
- Experience in machine learning
- Experience with scientific programming environments (Python / Matlab / R)
- Experience in signal processing – an advantage
- Experience with Big Data – an advantage
- Good communication skills

About Sigmabit:

A subsidiary of Elbit Systems, Sigmabit is a fast-growing start-up company in Be'er Sheva. We develop innovative solutions and cutting-edge Big Data and Cyber technologies. We offer a dynamic environment backed by a global leader.

If you are a smart, creative team player - **come grow with us!**
