

Bio-Based Initiative (BBI) – Call Topic 2017

Consortium-based research	R1	Valorisation of gaseous side streams from bio-based operations into chemical building blocks BBI 2017.
	R2	Innovative technologies for the pre-treatment and separation of lignocellulosic feedstock and complex composition streams into valuable fractions while maintaining key characteristics
	R3	Exploiting extremophiles and extremozymes to broaden the processing conditions to convert biomass into high-value building blocks
	R4	Proteins and other bioactive ingredients from side streams and residues
	R5	Novel bio-based chemical precursors to improve the performance of mass consumption products
	R6	Competitive biodegradable, compostable and/or recyclable bio-based plastics for a sustainable end-of-life phase
	R7	Novel secondary bio-based chemicals without significant fossil-based counterparts but with high application potential
