Head of R&D, Bookings group

We're looking for a Head of R&D to join our Bookings group

Wix Bookings, launched just one year ago at our Beer Sheva site, provide a powerful business and schedule management platform for small business owners, Wix largest business. You'll get in on the ground floor, joining forces with our passionate and talented team to develop this exciting needle-moving product.

You have a passion for cutting-edge technology and a hands-on delivery-oriented approach. You understand the technical complexity involved in web development, and have an expert sense of architecture and design. You have experience in mentoring and guiding engineers teams. You stay up-to-date on the latest industry advancements, and will design creative ways to implement them into our products.

Responsibilities

- Lead and continuously develop a team of high-caliber, experienced developers
- Work alongside the bookings product team to maintain and develop Wix's success
- Leverage previous development expertise, take part in the delivery process and stay ahead with the latest in cutting-edge technologies
- Play a key role in architectural and strategic decisions
- Work alongside other Wix R&D teams and R&D management
- Work with development teams, product owners, QA and others to maintain high levels of visibility and efficiency, and collaborate on and influence new products

Requirements

- 5+ years of web development experience
- 3+ years of experience in agile projects
- 5+ years of management experience on engineering teams
- Experience in continuous integration, continuous delivery and TDD
- Demonstrated strengths in both client & server development in B2C companies
- Deep understanding of OOP
- Experience with Scala, Java, C#, Ruby or Python
